New pull-out kitchen tap with a magnetic system

An industrial, avant-garde style kitchen tap with a high 360° swivel spout that pulls out, featuring the most innovative magnet system.

Today, we have seen growing interest and consideration from users in everything that makes up a kitchen, the room that is taking on an ever greater role in the home. Ramon Soler® is therefore responding to this demand and continues to work constantly on developing the most innovative, technological taps, worthy of becoming the star product in the kitchen.

New kitchen tap with magnet system by Ramon Soler®

New kitchen tap with magnet system by Ramon Soler®

Ramon Soler®, a tap manufacturer since 1890, surprises us this time with the new kitchen tap it has developed, with an exquisite semi-professional aesthetic and a thoroughly ergonomic and functional character.

The new kitchen tap with side single-lever mixer stands out for including an innovative magnet system, which allows the spout to return easily to its original position when use ends, thanks to the action of an effective magnet.

New kitchen tap with magnet system by Ramon Soler®

The brand presents a designer tap with a clearly industrial aesthetic that completes the kitchen and makes the daily routine a comfortable experience. To complete and enhance the ergonomics and ease of use of the tap, it includes a high 360° swivel spout covered in black silicone, with a pull-out spray head ideal for comfortable use, whether washing large kitchen utensils or food.

New kitchen tap with magnet system by Ramon Soler®

With this kitchen tap model, Ramon Soler® presents a proposal able to bring distinction and a contemporary air to every corner of the kitchen. Sleek and with pure lines, these taps convince with their valuable functional character and captivate with their exceptional quality.

It is also the perfect tap to place on a kitchen island, becoming the star piece and offering total design flexibility. At the same time, its antibacterial properties bring a very modern professional, industrial touch.

SYSTEMS

HEALTH REQUIREMENTS. Our taps meet the demanding health regulations (ACS in France and KTW in Germany), which guarantee that the materials in contact with water pose no risk to health.

New kitchen tap with magnet system by Ramon Soler®

SENSITIVITY. Our single-lever and thermostatic cartridges allow the desired temperature to be adjusted comfortably, blending the water progressively without sudden temperature changes. In addition, our thermostatic cartridges react in less than a second to variations in temperature and flow, maintaining the requested temperature.

ERGONOMICS. The ergonomic design of our taps makes them easy for anyone to use.
