Prisma wins the Red Dot Design Award 2024

The new Prisma tap collection by ramonsoler® receives international recognition for design and innovation for its single-lever basin taps

Prisma receives, for the first time, recognition for the high quality of the design of its single-lever basin taps: it wins the Red Dot Design Award 2024.

Tall single-lever basin taps from the Prisma collection by ramonsoler®, winners of the Red Dot Design Award 2024.

The Red Dot award is a renowned accolade, given in pursuit of good design and innovation. Prisma has been conceived with an avant-garde design that redefines the aesthetics of any space.

DESIGN. Clean lines and geometric forms intertwine to create pieces that are not only visually stunning, but also functional and ergonomic, providing a unique experience for users.

Personalisation reaches its fullest expression with this series, which offers four striking finishes to

suit any style and preference. From timeless chrome to an elegant matt black, a luxurious brushed gold and the new graphite. All of them guarantee exceptional durability and resistance, thanks to their exclusive Quality Finish system, which is ten times more resistant than certified chrome plating in the salt spray test.

It is worth noting that Prisma has an integrated water-saving system, which limits the flow to a maximum of 5 litres per minute. Every drop counts, and with ramonsoler. the commitment to sustainability becomes a tangible reality throughout the bathroom.

RED DOT DESIGN AWARD

Every year, the Red Dot Design Award sets out to find the best products of the year. An outstanding international jury of design and engineering professionals and experts evaluates in detail a large number of entrants across different product types.

The products selected by the jury to win an award may be aesthetically appealing, functional, smart or innovative, but what they all have in common is their extraordinary design. The Red Dot label has established itself internationally as one of the most sought-after quality marks for good design.

The Prisma single-lever basin tap by ramonsoler.® has received the award in the Product Design 2024 category.

The outstanding and elegant design of the Prisma single-lever basin taps adds a touch of sophistication to any basin. The single-lever basin taps in this series are a perfect combination of style and functionality. They are available in standard sizes for conventional bathrooms, as well as in XL tall-spout versions for bowl-type basins.

The different sizes and finishes of the single-lever basin taps in the Prisma collection by ramonsoler.® are an excellent option for those looking for high-quality, versatile and elegant products for their bathroom spaces. In short, this award-winning collection offers solutions for every need, ensuring that every bathroom can be transformed into an oasis of luxury and comfort.

Since its beginnings in 1890, the firm ramonsoler.® has striven with perseverance to create products that generate sensory experiences and improve people's quality of life by solving real problems, through continuous improvement in process engineering and in the final products it has launched onto the market. Today, more than 130 years later, it is experiencing a moment of deep recognition for its "know-how", focused on integrating sustainability, innovation and high technology.
