RIK, a geometric shape

For lovers of geometry and minimalism, Ramon Soler® offers RIK, a straight-lined designer shower head that provides the best benefits of hydrotherapy. With RIK we can enjoy showers full of well-being, as well as helping to ease our muscle tension and calm the nervous system after a long, stressful day. Hydrotherapy is increasingly being installed in homes because users are looking for greater comfort without having to leave the house. RIK is a shower head fitted to the wall of our shower to envelop us in a pleasant rainfall. Its square, angled design lets the water fall over our body with ease, promoting greater well-being and improving rest by bringing relaxation.

RIK shower head by Ramon Soler®

The RIK wall-mounted shower head by Ramon Soler® is a model that combines perfectly with the brand's concealed single-lever and thermostatic taps and the best handsets. The shine of its Diamond Finish chrome multiplies the light, creating a more pleasant and luxurious feel.

It also has an anti-limescale system, thanks to its flexible silicone nozzles, from which limescale and impurities come away easily. These nozzles are of the highest quality and wear-resistant, so that the shower head works better and is 100% reliable.

A shower head ideal for any project, public or residential, as it meets the ideals of wellness: thanks to the healthy balance it provides on a physical and emotional level, general well-being is within easy reach.
