New kitchen sink with satin copper finish by Ramon Soler®

Setting trends in the kitchen is possible with this faucet with avant-garde aesthetics, pure lines, and organic shapes, dressed in a copper finish that does not go unnoticed.

[Ramon Soler®](#) manufacturer of taps since 1890, surprises us once again, incorporating the most groundbreaking details in his new collection of kitchen sinks. The new kitchen faucet that it has developed, with a lateral single-lever mixer, removable 360° rotating high spout, incorporates an **innovative system of magnets**, which allows it to return to its initial position. Now we can find it in a spectacular **satín copper finish**, which combines perfectly with the black color of the silicone that covers the spout.

About Ramon Soler®

A mixers manufacturing company based in Barcelona since 1890, with facilities of 16,000 m2 in San Joan Despí (Barcelona).

Its catalogue offers a wide range of faucets and hydrotherapy systems that stand out for being eco-efficient, aesthetic, comfortable and highly reliable products. Ramon Soler® has created faucet models designed for people, seeking not only to create beauty, also comfort and precision in their mechanisms. For several decades, they have prioritized research to optimize not only the consumption of water and energy but also the optimization of materials and production processes.

Ramon Soler® has become an international reference brand because its products have been certified with the most demanding regulations and its commercial networks extend to 5 continents, in more than 50 countries.
