## *Blautherm matt black shower columns by Ramon Soler*

*Matte black, the latest trend finish with maximum strength and durability. The Blautherm matt black shower columns by Ramon Soler® have an immediate delivery time of 10 days*

Como venimos observando desde hace un tiempo, la elegancia atemporal del color negro se encuentra en auge en los baños más actuales. El negro es el color que desde siempre se ha asociado a un lujo no ostentoso y a la máxima elegancia y sofisticación.

As we have been observing, the timeless elegance of the color black is booming in the most current bathrooms. Black is the color that has always been associated with a not ostentatious luxury and with the maximum elegance and sophistication.

For this reason, [Ramon Soler®](http://ramonsoler.net) presents the new large matt black Blautherm thermostatic showers, which combine design, maximum performance and an unbeatable price.

#### **Immediate delivery.-**

Its benefits include its efficient delivery. [The firm](#) constantly works to offer the best pre-sale and after-sale service. That is why it fully optimizes its times, being able to offer immediate availability of the matt black Blautherm columns. In just 10 working days you can enjoy the latest trendy shower systems in your bathroom.

#### **Maximum resistance.-**

The matt black finish of **Ramon Soler®** has maximum durability and resistance, which is essential for daily use: **the matt black finish of Ramon Soler® in the salt spray test is ten times higher than chrome.** The guarantee of maximum quality is an essential condition for **Ramon Soler®** and together with the design; it is of vital importance for all its clients and especially for the hotel sector, which has specific requirements in terms of saving water, security and Health. Therefore, the firm is clear that its shower systems have to present not only a refined and aesthetic design, but also a set of technical characteristics that make the whole set an ideal piece for residential and hotel projects.

The matte black finish of the **Blautherm** shower column has been achieved using the most advanced **electrostatic over galvanized** technology that provides extra strength and durability

## Double position.-

The new matt black **Blautherm** shower columns are available in fixed or extensible format. This telescopic system allows an extension of the column from 880 to 1460mm. In this way, the large shower can be adjusted to both the space and the user, offering total ergonomics

## Saving water.-

For the firm, sustainability is part of its most important values, that is why the **Blautherm** shower columns are also sustainable, offering us water savings without loss of comfort for the user.

## Advanced technology.-

The **Blautherm** Premium matt black thermostatic shower columns have a **limiting temperature system** that allows the user to choose the exact temperature, without changing the Flow rate whether the tap is opened or closed

They also incorporate the **cooltouch** system, a built-in technology that allows the faucet to always remain warm

The shower column also has a **hotblock** system that, in the event that the cold water supply is interrupted, prevents high temperature water outlet. It is a piece that increases safety in the bathroom, by avoiding possible burns.

## Large format shower heads.-

Blautherm Premium thermostatic shower column shower heads have a diameter of 300mm, a large format that offers a water drop in the form of an enveloping rain, which offers maximum comfort for the user.

In addition, it has **flexible silicone nozzles**, thanks to which lime and impurities are easily removed, even by rubbing with your fingers.

## Multifunctional hand shower.-

These large showers have a multifunctional hand shower, which allows you to choose the type of water outlet, being able to choose between three functions with different intensities offering a massage session in your own shower.

## Perfect value for money.-

Also noteworthy is the unbeatable value for money of **Blautherm** shower columns, which makes it an absolutely attractive product for an increasingly demanding market that requires more economical and stylish products backed by leading brands such as **Ramon Soler®**.

With these **Ramon Soler®** matt black **Blautherm** Premium bathroom columns, maximum design and comfort are offered. Installers, architects, interior designers and consumers can experience the highest quality and design in the most sophisticated bathrooms and thus offer

an unbeatable product accessible to all. Once again its constant evolution and effort to offer design, competitive and quality products to its customers.

To complete the offer, you can choose Matte black single-lever shower columns, with maximum durability, water saving and an unbeatable design.

**Manufacturer: Industrias Ramon Soler**

**Model: Blautherm**

**Design: Own team**

**Finishes: Chrome and Matte Black**

## TECHNOLOGY

### WATER SAVING S2

50% of the flow is supplied. This limitation is overcome by opening the tap at its maximum flow if desired.

TERMOSTOP

### THERMOSTOP

The thermostatic taps have a limiting temperature system, which indicates to the user the limit of temperature for efficient use of 38° to 42°C. This system limits the hot water temperature by a rotation stop on the steering wheel, being able to exceed it with the push of a button.

HOTBLOCK

### HOTBLOCK

In case of sudden cold water supply failure, our thermostat has a system that automatically blocks the high temperature outlet, which could cause burns to the user.

SENSIBILIDAD

**SENSITIVITY** of the thermostatic faucet has been studied, that allows us to comfortably regulate the desired temperature: a slight pressure on the button plus the rotation of the steering wheel temperature regulator will be enough to increase it. In addition, Ramon Soler's 1700T thermostatic cartridges react in less than 1 second to variations in temperature and flow, maintaining the required temperature

COOLTOUCH

### COOLTOUCH

The thermostatic faucet always remains warm to the touch, to avoid the risk of burns.

ANTI-CAL

### ANTICAL

Our shower heads have flexible silicone nozzles thanks to which lime and impurities are easily removed, even by rubbing with your fingers. Ramon Soler® uses wear-resistant nozzles of the highest quality, which ensures that the shower head is better preserved and that its operation is 100% reliable. Good maintenance prevents technical incidents.

ERGONOMIA

## ERGONOMICS

The ergonomic design of our faucets allows easy use for anyone.

DURABILIDAD

**DURABILITY** .Our faucet stands out for its great resistance since all its external components with wear are metallic, which allows a great durability over time.
